To Whom It May Concern:

I am writing in support of the efforts to establish a Charter School in Bakersfield by LinkED Pubic Schools in Bakersfield, California. Our community has demonstrated a clear commitment to educational improvement, and support for the establishment of a Charter School within the district only demonstrates that this commitment will continue. The Central Academy of Arts and Technology presents an opportunity to expand the local educational offerings and bring benefits to local schools.

This proposal for a Charter School in Bakersfield presents an ambitious, innovative, and comprehensive plan for an educational organization that builds from existing models, best practices, and evidence based research. I (or name of company) appreciate(s) BCSD's consideration of other educational opportunities for children. Our city school's need to foster this kind of ambition because it serves the families and future of Bakersfield.

The leadership of LinkED Public Schools and its board members demonstrate the commitment, expertise, and resolve to continue to improve education for families in Bakersfield. There is every reason to believe that they will succeed in closing the achievement gap and advancing our community.

The mission of CAAT to continuously improve public education by leveraging the strengths of the community has the potential to not only greatly enhance the future of students and their families but also the economic development and growth of our city center.

I respectfully urge you to thoughtfully review and approve this chart proposal.

Sincerely,
